

Namekagon River Map & Checklist

Map 3: Trego to Riverside Landing

This river map provides information for the 39.5 mile section of the Namekagon River between Trego and Riverside Landing. This checklist will help you to have a safe and enjoyable trip!

☐ **Personal Floation Devices (PFDs) are required** onboard for each passenger on all vessels. **Children under the age of 13 must wear a properly fitting PFD** while in moving vessels.

☐ Water levels change. It is dangerous and **illegal to jump from bridges, cliffs or trees** into the river.

☐ **Carry out all trash.** Bring trash bags with you.

☐ **Open fires** are permitted only in steel fire rings or grills. Dead and down wood may be collected for firewood except from islands. Fires must be out and ashes cold before you leave the area.

☐ **Camping** is permitted in designated sites only. **There is a three night limit at each site.** Most campsites accommodate 3 tents. Group sites accommodate up to 6 tents.

☐ **Primitive toilets** are available at campsites and landings. At areas without toilets on the river, bury human waste 6 inches deep and at least 100 feet away from river and campsites.

The black sandshell mussel is a species of concern in Wisconsin.

It is illegal to collect or disturb freshwater mussels or their shells.

☐ Avoid **overhanging trees** that are in the water. They can overturn canoes and trap canoers underwater.

☐ **County K Landing** will be closed after Labor Day 2005 for rehabilitation. **Highway 77** will be closed in 2005 from the Burnett- Washburn County line to the town of Minong. Access to **Fritz, West Howell and Howell Landings** may not be possible from Highway 77. Call (715) 635-8346 for current information.

☐ **Deer ticks** found along the river can carry Lyme disease. Check often for ticks and know the symptoms of the disease.

☐ **Drinking water** is provided at some landings. See reverse for locations. River water must be treated to protect against giardia.

☐ **Glass beverage containers** are prohibited on lands and waters within the Riverway.

Rapids on this stretch of river are usually classified as Class 1, the easiest class.
